Why work for Freeman Audio Visual Canada?

- We have the largest team of Audio Visual Professionals in Canada.
- We recognize employee contributions through many recognition programs.
- We provide the most comprehensive hands-on technical training programs.
- We promote individual career planning development opportunities.
- We offer a pleasant working environment and an interesting benefits program.

We are presently recruiting for:

Audio-Visual Technician – Junior Level – Montreal

We have multiple full-time audio-visual technician positions available immediately. We are currently looking for junior-level technicians.

Position Overview

The audio-visual technician plays an important key role with our customers. It ensures the timely and professional delivery of the full range of our services. The position reports to the Operations Department.

Key Job Responsibilities:

- Drive company vehicles, load and unload equipment. (Requires heavy lifting)
- Set up equipment based on client need
- Operate the equipment to ensure the smooth running of the event
- Dismantle the equipment at the end of the event
- Assist with the verification and preparation of equipment as required
- Complete post-meeting reports and various reports and time sheets
- The work takes place in various establishments such as hotels, convention centres, meeting rooms, training rooms, etc. in and around Montreal
- The work is based on needs of each event, therefore the working hours and schedule are irregular, including work on weekends and holidays

Minimum Requirements

- High School Diploma
- Possess a valid driver's license (owning a vehicle is an asset)
- Strong interpersonal, organizational, and customer service skills
- Bilingual (written and spoken)
- Empowered to work under pressure with tight deadlines and according to customer requirements
- Quick thinker with the ability to solve problems easily
- Ability to communicate and have a neat appearance

Rewarding wage including salary and benefits.

Concert Lighting – The Art and Business of Entertainment Lighting, 4th Edition

Concert Lighting: The Art and Business of Entertainment Lighting, 4th Edition provides readers with an updated look at how to succeed in the complex world of concert lighting design and technology.

The authors have reorganized the book into three comprehensive and thoroughly revised sections, covering history, equipment and technology, and design, and containing new information on LED technology, pixel mapping, projection options, media servers, automated lighting, solutions for moving lights, DMX, Ethernet problems, and designer communication and collaboration. This book also explores the cross-media use of concert lighting techniques in film, video, theatre, and the corporate world, highlighted with advice from master designers such as Bruce Rodgers, Cosmo Wilson, and Sarah Landau.

From securing precious contracts to knowing the best equipment to use to design a show, this book covers everything a designer needs to know about working in the touring industry.
